This report provides data on persons employed in the Accommodation and Food Service Activities Industry in New Providence. The information provided in the document was obtained from an administrative data source of leading Accommodation and Food Service Activities establishments which account for approximately fifty percent (50%) of total employment in these establishments operating in New Providence in 2019. Though limited in this respect, the results do provide valuable information on occupations, average basic wages (*not including mandatory and other gratuities for tip category workers*) and average hours worked in the Accommodation and Food Service Activities sector.

This report, previously named the '**Occupations & Wages Report in the Hotel Industry**' was renamed in 2011 to '**Occupations & Wages in the Accommodation and Food Service Activities Industry**' to comply with revised industrial classification outlined in the International Industrial Classification of All Economic Activities (ISIC 2008). DATA HIGHLIGHTS

The hotel Industry's "most robust performance for 12 years", highlighted by January's 2019 48 percent year-over-year room revenue increase, was maintained for the entire 2019 first quarter. Mr. Robert Sands, Bahamar's Senior Vice President of government and external affairs, told the tribune in 2019 that "occupancy levels were improving, occupied rooms were improving and rates were improving compared to the year before. There was a level of improvement and increases for all hotels, and, in no small way, Bahamar contributed significantly to that increase.

Hurricane Dorian struck the Bahamas in September 2019. This category 5 hurricane devastated the Hospitality sector and as a result a downward trend penetrated the entire Accommodation and Food Service Activities Industry.
